Your Science, Our Focus

AH diagnostics

Celebrating 40 years of molecular biology innovation

qPCR instruments from 96 to 9216 datapoints per run

Cielo™ 6
AIQ060

Fast, sensitive real-time PCR system with intuitive software and reliable performance. Up to 6 channels.

Get 3 years warrenty FOC + Azure reagents voucher worth 1.100 EUR

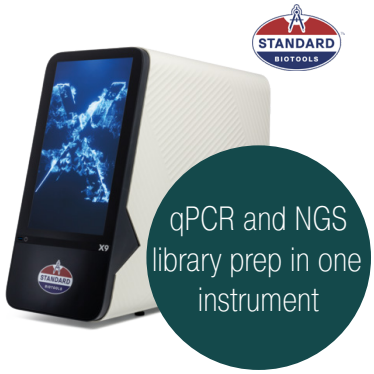

FastGene qFYR 384
FG-QPTC03

High-throughput 384-well qPCR system delivering fast, precise thermal performance. Up to 5 channels.

Campaign price:
30.225 EUR

Biomark X9
X9-X9

Nanofluidic real-time PCR system enabling 9,216 singleplex reactions per run. Also able to automate your NGS libraries.

We have a sequencer and library prep solution that covers your needs

Biomark X9
X9-X9

Automated, high-throughput targeted library preparation system delivering reproducible results with minimal hands-on time. Up to 4.800 customized targets per sample.

Nimbo NGS Sequencer
SL-Y00122

Compact and ultra-fast delivering up to 40 Gb per run with workflows as fast as 2.2 hours, offering high accuracy, flexible read lengths, seamless integration into existing NGS workflows.

Evo NGS Sequencer
SL-Y00125

High-throughput NGS system delivering up to 1800 Gb per run with 9.5–24-hour work-flows, compatible with commonly used NGS library format.

Contact us for a great end-of-year offer!

Reagents tailored to your project

cDNA synthesis PrimeScript™ RT Reagent Kit (Perfect Real Time)
RR037A

High-efficiency reverse transcription kit delivering fast, reliable cDNA synthesis for sensitive real-time qPCR.

One Step PrimeScript™ III RT-qPCR Mix, with UNG
RR601A

Fast, reliable one-step RT-qPCR mix with UNG, enabling clean, robust detection even in challenging samples.

Owi Green FAST qPCR Premix
OZYA008-1
OZYA008-5XL
OZYA008-25

Fast, sensitive SYBR based qPCR premix with excellent specificity and universal ROX compatibility.

Campaign prices from:
27 EUR

Owi Script RT UltraMix with gDNA CleanUp for qPCR
OZYA012-20
OZYA012-100

Fast, sensitive cDNA synthesis with efficient genomic DNA removal, reduced contamination risk, and a simple workflow.

Campaign prices from:
41 EUR

Owi ExactLadder DNA 100bp Ready to Load
OZYC006-500

5 µl loading (500 ng)
Agarose gel 1.7%TAE

Ready to Load molecular weight marker, designed for the precise sizing of DNA fragments from 100 bp to 1,500 bp.

Campaign price:
54 EUR

Owi Taq Master Mix Ready to Load
OZYA011-200XL
OZYA011-1000

Fast, robust PCR master mix delivering strong performance across diverse templates, including GC- and AT-rich regions, with direct-colony PCR and ready-to-load convenience.

Only 0,21 EUR/reaction

Instruments that support your application

MagnetaPure series
255753
255744
255745

Open automated systems for the purification of DNA, RNA, proteins and cells with magnetic bead reagents. Program or automate your own protocol to your favorite reagents or use the preloaded protocols. Instruments available from 16 to 96 samples.

Prices from:
6.385 EUR

FastGene Gradient PCR Cycler
FG-TC03

Compact 96-well gradient PCR cycler for reliable routine PCR, optimization, and assay development. 96-well block for high sample throughput. Integrated gradient of up to 42°C, ideal for PCR optimization.

Introduction price:
4.275 EUR

Sapphire FL Biomolecular scanner
IS4000

Precise quantitation of nucleic acids and proteins, from in vitro molecular assays to in vivo imaging. Second generation Sapphire, the ultimate and flexible biomolecular scanner with customizable and user-changeable laser and filter modules.

Get 3 years warrenty FOC + Azure reagents voucher worth1.100 EUR

Certified service that meet your needs - a quick call away

Fast response time
With one point of contact at AH diagnostics, booking a visit is easy. We respond to your inquiry within 48 hours.

Service
A Field Service Engineer will perform the validation of your PCR thermocycler right in your lab, so you experience the least amount of down-time.

Service report
Following the service visit, you will receive a comprehensive report containing all measurement data.

Essentials for every lab

Storage plate 96-well, round bottom
016061

0.8 mL DeepWell sample processing and storage plate for NGS and genomic library prep, cell culture and sample storage applications. Specifically designed for use with liquid handlers, and magnetic bead extraction.

Campaign price:
293 EUR

Microcentrifuge for PCR plates
062583CL

Unique rotor design prevents sample spillage. Accepts all popular PCR plates, microplates, microtiter plates and even Deepwell plates with optional rotor.

Campaign price:
621 EUR

DNA ExitusPlus IF spray
049929

DNA-ExitusPlus: decontamination in 10 minutes at 20 °C or more. For the decontamination of surfaces, appliances, plastics and glassware as well as pipettes.

Campaign price:
50 EUR

Concentrate on your science - trust your concentration

DS-Helium
I-20210

DeNovix

Nano UV with absorbance measurements at 260 nm, 280 nm and 230 nm.
Affordable and reliable option for research and teaching labs.

Microvolume: 2 – 1,600 ng/µL (dsDNA)

Campaign price:
6.546 EUR

Save 25% on all Denovix instruments

DS-7 series
DS-7
DS-7+

DeNovix

Nano UV-Vis with optional cuvette. Ideal for budget-friendly labs looking for reliable quantification.

Microvolume: 2 – 15,000 ng/µL (dsDNA)

Campaign prices from:
8.123 EUR

DS-11 series
DS-11 DS-11-FX
DS-11+ DS-11-FX+

DeNovix

Nano UV-Vis, Fluorescence and Cuvette options. Multi-mode spectrophotometer fluorometer for unmatched specificity and sensitivity.

Microvolume: 0.75 – 37,500 ng/µL (dsDNA)
Fluorescence: 0.0005 – 4,000 ng/µL (dsDNA)

Campaign prices from:
9.557 EUR

40 Years
Your Science, Our Focus

AH Diagnostics marks 40 years of supporting and advancing molecular biology. From the early days of qPCR, sequencing, cloning, and later CRISPR, we have helped transform these technologies from specialist methods into everyday tools across research, diagnostics, and industry.

Throughout this journey, our mission has remained constant: to deliver instruments and solutions that enhance workflows, improve accuracy, and strengthen scientific outcomes, backed by qualified specialists dedicated to supporting our customers every step of the way.
